

Maxwell "K" Bed

MAXWELL®

The New Look of Rest

A Total Relaxation Center

MAXWELL®

Relieve back and leg pressure

Elevate head and feet

Sleep with head elevated

AVAILABLE IN: TWIN XL, FULL XL,
QUEEN AND DUAL KING

- **Lift motors** for independent adjustment of both head and foot.
- **Patented Maxi-Safe® Safety Device** feature offers reassuring operating safety while the bed's adjusting mechanism is in motion. With Maxi-Safe the bed will stop if any obstruction disrupts the adjusting mechanism.
- **Maxidrive® Motors** the only motors designed expressly for adjustable beds, Maxidrive sets the industry standard for safety and dependability. They remain reliable through a lifetime of ups and downs! Each bed includes two permanently lubricated motors rated at 1/6 horse power with over 2500 lbs lifting torque.
- Metal frames are welded and powder coated for superior strength and finish. Proven reliability.
- UL listed CSA approved electronics.
- Optional mounted massage motors.
- Maxwell technicians available nationwide.
- Hi-Low beds available.
- American made.
